The next morning she experienced hypersensitivity to the human electromagnetic field and an ability to see the multidimensional body.

This discovery has initiated a journey to find the truth of what occurred that night. Her first hypnotherapy session, in June 2017, resulted in the discovery of repeated abductions originating in her childhood. She recounts her abductions through her regressions and remote viewing, in which she brings forth information regarding the universe and ancient DNA alteration here on planet earth that operates to control the population through covert government manipulation. But her journey does not end there. Geraldine has undergone 6 additional regressions with Alba Weinman, Barbara Lamb, and Miesha Johnston. Nov-17, Dec-17, Feb-18, March-18 April-18, May-18 and Sept-18 in which she goes deep into each abduction and the history of the universe, in order to understand the reason behind the hybridization program here on and off the earth and how the program is operated among humans. Geraldine goes in depth on the understanding of Ascension with the utility of human technology, tracing back DNA lineage information for the ongoing harvest of life force within the Matrix Universe. Geraldine has been involved in 3 different hybridization programs resulting in 24 hybrid children. This discovery has uncovered a lifetime of documented experiences. Experiences that prompted her to create HybridMother.com a support group for hybrid parents and Children that are experiencing current hybridization and abduction experiences around the world.

Her most recent experiences involve military laboratory abductions in the US, in which she documents and researches through regressions. Geraldine's current work revolves around the operation of the Multidimensional body and how DNA consists of information that traces back to the origin of life seeded here on planet earth and beyond. She discusses the architecture of the Universe and the important role of the human soul.
