## SPEAKER BIO

## JANE SHATTOCK

I am speaking on Sunday, and shall be covering a strange contact that my mother had from the 'other side', starting in 1973 and continuing until the early 1980's.

My mother died of Parkinson's disease in 2006, so I am trying to publicise the knowledge that she left behind as it concerns the evil forces that we as a civilisation are being subjected to at this present time, I also think that possibly others are being contacted also.

I am semi-retired now, mostly due to the government crashing the economy, but I still work as a Physiotherapist, Acupuncturist and healer using my knowledge of Chakras and the body's meridian system.
