SPEAKER BIO

JONNY ENOCH

Jonny Enoch is a host on Gaia TV and a paranormal expert on the Travel Channel's Alaska Triangle. His groundbreaking talks about ancient mysteries, secret societies and extraterrestrials have been well received at conferences and tours all over the world. What makes his work different is that he explores every angle of the unknown, while tapping into the deep layers of the human mind, tracking down experts in remote areas, scouring libraries for rare manuscripts and getting dirty crawling on his hands and knees under ancient temples. His charismatic investigations into lost ancient civilizations, ET contactees, and unexplained phenomena have been featured numerous times on popular shows like Coast 2 Coast with George Noory, Fade 2 Black with Jimmy Church, and TV shows like Beyond Belief, Deep Space and Ancient Civilizations. His work reveals an intelligent blueprint found within world religions and ancient symbolism while exploring quantum physics and ancient consciousness technologies. In his numerous travels to megalithic sites around the world, he has discovered evidence for giants, advanced machining and subterranean civilizations.
