## MARIA WHEATLEY

### Topic: From Stonehenge to Sardinia

Maria will explore the early phases of Stonehenge and how it was used as a sacred lunar goddess temple to predict complex lunar cycles and solar and lunar eclipses. Eclipses strongly influence the entire global ley network and Maria will reveal how a lunar eclipse at midwinter was revered at Stonehenge. It was a sight to behold, far more mystical and majestic than the midsummer sunrise that is well known.

Maria will also explore the major leys that link Stonehenge to a planetary land zodiac and how the positions of the planets can trigger earth changes. According to an astrologer that once studied at Alexandria in Egypt, Aleppo is sited at the esoteric centre of an ancient land zodiac, and Maria will describe how it can influence a particular country - and its people.

Maria will also show the whispering earth energies that were skilfully integrated into several ancient sites of Sardinia taking you on a pictorial journey - from a hypogeum to a nuraghe temple - to experience the timeless temples of this long lost civilisation.
