Mary's research explores the Encounter phenomenon from a multidimensional consciousness perspective and worked with families and children. She cites her research to show evidence the star 'Visitors' have orchestrated many multidimensional programs to 'upgrade' and activate the consciousness of Homo sapiens to become a evolved 'new' human. Mary believes this is a global phenomenon and the recent generations of humans, often called Indigos' or crystals some labeled ADHD, Dyslexic, or Autistic etc. are already 'awake' and conscious of their star origins and their Earth Mission to help activate the consciousness of Humanity.
