

UFO ACADEMY

SPEAKER BIO

PHILIP KINSELLA

Philip Kinsella has researched the UFO/UAP and afterlife subjects for well over three decades. He is the author of seven non-fiction books within these controversial areas and has been credited with a revolutionary theory back in 1997 tackling the alien abduction phenomenon. Philip is also an award-winning medium, having won 'Mediumship of the Year' in Portsmouth, England in 2008.

He, along with his identical twin brother, Ronald, (who is an artist and author himself) also won awards for their 'Dedication to the Truth' within UFO research in 2022.

Along with articles, he has appeared on national television, including documentaries on all major outlets, and is a frequent guest on radio across the world.

UFO ACADEMY

SPEAKER BIO

Philip is also honoured to be among top UFO/Cryptid and Conscious researchers in a bid to discover the truth of our origins, along with the bigger picture. He is currently working on other books.

Philip has explored the direct link between our thoughts and interactions with alternate forces operating outside our current dimension of awareness. He believes that our passage here on Earth is merely one of experience, and that death secures a full awakening of the restricted, conscious ability we have while existing in human form. However, many people across the world are 'awakening,' and something the 'System' we serve does not want to happen – hence why they have been utilising a program to douse the truth that we are so much more than mere biological automatons.
